

Specialized Supports

Specialized supports are assessment or treatment services that may be required by an individual with a developmental disability at some point during their life. Some agencies also provide these services to family members. Examples include:

- Speech & Language
- Audiology
- Occupational Therapy
- Counseling
- Behavior Therapy

How to Access Specialized Supports

Review the listing of specialized supports by using the 'Agency programs/services' menu item on the dsto website (www.dsto.com) and sort by agencies offering 'specialized supports'.
